Notendasögur

Recipe: As a < type of user >, I want < some goal > so that < some reason >.

1. As a user, I want to find hotels in Reykjavík. I want to stay there.
2. As a user, I want to know how much a hotel room costs so that I can find the best price.
3. As a user, I want to know where hotels in Reykjavík have breakfast included. I want to have easy access to breakfast.
4. As a user, I want to find all the hotels that cost less than 10000 kr. so that I can manage my budget.
5. As a user, I want to find those hotels that have five stars. I like to stay fancy.
